## Education

### Axis Institute of Technology and Management

2022 - 2025

*Bachelor of Technology (Artificial Intelligence and Machine Learning)*

*Kanpur Nagar, Uttar Pradesh*

### Government Polytechnic

2019 - 2022

*Diploma in Civil Engineering*

*Unnao, Uttar Pradesh*

### Sardar Patel Inter College

2017 - 2019

*Intermediate*

*Kanpur Nagar, Uttar Pradesh*

## Experience

### IBM

Jun 2023 – July 2023

*AI Intern*

- Engaged in a one-month internship organized by IBM SkillBuild in collaboration with AICTE, contributing to the development of innovative solutions for mental health tracking using advanced AI techniques.
- Interned on an AI Mental Fitness Tracker project at Google Colab in Python, conducting linear regression, random forest analysis, and database management for mental and substance use disorders.
- Leveraged libraries such as NumPy, Pandas, Seaborn, Matplotlib.pyplot, and Plotly.express to visualize data through charts and figures, presenting key insights effectively.

### Coders Cave

Aug 2023 – Sep 2023

*Web Developer Intern*

- Contributed to the development of various projects including a Netflix clone, link shortener, online code editor, and a personalized portfolio website, showcasing proficiency in web development and design principles.
- Earned a Letter of Recommendation (LOR) following the one-month internship, organized by Codes Cave in partnership with AICTE, demonstrating a commitment to continuous learning and skill development.
- Gained practical experience in front-end and back-end web development, enhancing skills in HTML, CSS, JavaScript, and various web technologies.

## Projects

**iNoteBook** | *HTML, CSS, JS, Bootstrap, ReactJS, NodeJS, Express, MongoDB*

- iNotebook is a React Application for managing personal notes on the cloud.
- Users can create, edit, and organize their notes on the cloud, making it a convenient tool for keeping track of important information and ideas.
- Notebook employs various security measures such as JWT (JSON Web Tokens), hashing, salting, and pepper to safeguard user data, preventing unauthorized access to personal notes.

**NewsMonkey** | *HTML, CSS, JS, Bootstrap, ReactJS, NodeJS*

- NewsMonkey is a dynamic news React-based web application providing daily updates across various categories.
- The app fetches news data through an API, enabling real-time delivery of the latest news updates, keeping users informed and up to date with current events.
- NewsMonkey offers daily news updates across a wide range of categories, allowing users to stay informed about current events, trends, and developments in their areas of interest.

## Technical Skills

**Languages:** C, C++, Python, Java, JavaScript, SQL

**Developer Tools:** VS Code, Jupyter Notebook, Google Cloud Platforms, Android Studio

**Technologies:** Linux, GitHub, Figma

## Extracurricular

### Game Making Competition

Gandhigiri Event

2022

- Collaboratively developed a Python-based Flappy Bird game, showcasing teamwork and programming skills.
- Created an engaging and functional game that mimics the classic Flappy Bird experience, demonstrating proficiency in game development using Python.
